Subject	MAAS - Preliminary Budget Estimate Commercial Options	Job Ref	16131-2

Hi Eugenie

Draft

Further to your emails dated 23.01.2016 and instructed, attached please find some indicative high level order of cost budget estimates for the following commercial options as FKM per your email dated 22.06.2017.

A summary of the results is as follows: (refer attached work sheet Excl. GST)

- Residential including Podium Parking [REDACTED] GST
- Commercial including Podium Parking [REDACTED] GST

Due to the limited and preliminary information available, we have based the preliminary high level order of cost budget estimates on the information provided and our understanding of the required scope of work.

No fully detailed design architectural, structural or civil detailed information or engineering services budget estimates were available for this exercise. We draw your attention to the item details, notes and exclusions. Please advise should you require any amendments.

We recommend that this preliminary budget estimate is proven up as the design develops and more information is available.

Consultant fees, council fees, preliminaries, builder's margin, contingency and escalation to completion is included. GST is excluded.

As instructed, in your email dated 22.06.07 we have adjusted some of the oncost to suit a commercial private sector environment.

We are available to sit with you and review after you have had the opportunity to go through. We trust this is in accordance with your requirements and please let me know should you require any additional information.

Thank You
